The National's heads severely blame Rochefort for precipitating a new

dilemma.

The World correspondent has interviewed several leaders in the senate and chamber. They simply expressed satisfaction at Dreyfus' dignified denunciation of Rochefort's statement and said they expect that an investigation will be granted. Rochefort, when accused of having raised a 'rumons' talks hotly about traitors and de-

It must not be forgotten, however, that IS99 was a year of exceptional prosperity and while trade was then stimulated by rising prices the succeeding year had to bear the brunt of the reaction. Despite these disasters, made unavoidable by the very conditions that brought such a phenomenal record for IS99, it still will be found that 1900 compares favorably with other recent years. with other recent years.

No Advance in Money.

So general preparation had been made by a stern business interests for a squeeze in money near the end of the year that the expected advance did not occur and collections in the interior were stood that banks made general complaint of the scarcity of mercantile paper offered for discount. paper offered for discount. This outcome was particularly encouraging, though business will need more money after Jan. 1. Meanwhile a good undertone has been continually in evidence, founded upon the active distribution of merchandise south and west, selling assuming an indifferent attitude except in cotton goods and some branches of silk where the general improvement has been reflected to a comparatively small degree. In both cotton and silk circles better things are expected in January and in no direction has reduction of working forces on mills occurred. Some wage differences have been adjusted. In this respect the situation is unusually bright.

Iron Trade Active. More talk of a general reduction in coke and cheaper ore after navigation opens might be calculated to unsettle quotations of the finished products, but iron and steel continues the even tenor of their way. In every department of this industry more business is offered than car be accepted unless purchasers are wil 2 g to give much time for delivery. One large foreign contract was lost on this account and at many points domestic operations are delayed by inability to secure material. Instead of the agitation for cheaper steel rails that was so prevailant a short time ago producers are said to contemplate ability to secure material. Instead of the agitation for cheaper steel rails that was so prevailant a short time ago producers are said to contemplate an advance. Domestic contracts in this line exceeded 50,000 tons at Chicago and among foreign orders is noticed one for 17,000 tons from Australia, with many smaller sales. Structural material is wanted for buildings, and bridges with noticeable activity in this department for export.

It is not a bad sign that the local jobbing trade in footwear is quiet, nor that orders received by manufacturers from salesmes are small, as most travelers returned home for the holidays. Stocks at the close of the year are excessive, although dealers are encouraged by the knowledge that manufacturers' supplies are light.

WEEK IN FINANCE. Manufacturers Are Taking in Public on Boom.

New York, Dec. 28.—Bradstreet's financial review tomorrow will say: Further illustration has been given this week regarding the force of the bullish influences which at present govern the movement of values in Wall street. Another good bank statement tended to negative fears that there might be a check to the progress of the market on account of the high rates for money a cause which has shocked for money, a cause which has checked so many promising movements in re-cent years. In fact though the preparations for the largest January interest and dividend disbursements in the his-tory of the country have been in full progress, the arrangements have been so skillfully conducted that, despite the sustained activity of the dealing in securities, the expansion of speculation so skillfully conducted that, despite the sustained activity of the dealing in securities, the expansion of speculation and the notable rise in prices, supplies of call money have never failed and interest rates have not advanced to figures which would give occasion for timidity or induce liquidation. The street, in fact not unnaturally, concludes that interests which are concerned in the development regarding various properties in the stock market are also using their influence to keep money in such a condition that no pressure or disturbance can arise from that source. If this is the case they that source. If this is the case they have been eminently successful, as call money has not been quoted above 6 per cent and stock market borrowers have had no difficulty in obtaining ample

Week is Remarkable.

The week in many respects has been one of the most remarkable ones since the "boom." which started immediately after the election began its course. Last Everybody believes that if an inquiry is accorded it will mean a revival of the case. The nationalists are palpably alarmed lest Dreyfus' former counsel, now stronger than ever, any find a formidable majority in both houses of the legislature; that, goaded by the insults of the opposition, will order an investigation, which will result in another court martial on the ground that new evidence has been dis-Saturday, although the stock exchange was to be closed on Monday as well as on Tuesday, Christmas day, prices advanced throughout the list and the volume of transactions surpassed all records for a half holiday, sales of 1,000,000 shares being officially recorded, and the real total was of curren con-1,000,000 shares being officially recorded, and the real total was, of course, considerably larger. On Monday, however, the London market was open, and great activity and strength developed in Americans there. The buying of our stocks was supposed to emanate largely from New York, but it was supplemented by covering by the foreign bears and purchases by the European public. Even on Christmas day there was a further exchange of bullish opinions in all the up-town resorts of brokers and their customers, and some transactions were reported to have been made at advanced quotations in sugar, St. Paul and other favorite stocks. In spite of the fact that support and many St. Paul and other favorite stocks. In spite of the fact that support and manipulation by inside interests and pools is apparent in the movements of many stocks, it is also evident that the public is in the market. The buying by commission houses, in fact, has been on an enormous scale. However, it is enough the free a trial bottle of kemp's palsary for the Throat and Larges at the court of the street is exceedingly to the fact that support and manipulation by inside interests and pools is apparent in the movements of many stocks, it is also evident that the public is in the market.
